ARGUMENTS

**Against Prohibition Amend-
ment Must be Mailed
To Voters**

**SUPREME COURT SO DE-
CIDES**

**And Mandamus is Issued
Against Secretary of State**

EXPECT MORE LITIGATION

**In Spite of Court's Decision,
Which is Announced Was
Arrived at Upon Broad
Constitutional Grounds
and In Spirit of Fair-
ness to Both Sides of the
Controversy.**

Columbus, Oct. 1.—All arguments, both for and against constitutional proposals, to be voted on in November will be printed and distributed to voters by the secretary of state.

In an unanimous decision the supreme court yesterday overruled the opinion of Attorney General Turner and authorized writs of mandamus to issue against Secretary of State Hildebrandt, compelling him to print and distribute arguments against the prohibition and stability amendments.

Though the court's opinion has not been written, it was stated that the merits of the case were determined upon a broad construction of the constitution to the effect that its makers evidently intended that both sides of a proposition should be given equal opportunity to have their arguments presented.

It probably was upon the principle of equal justice to all that the court ignored the contention of the Anti-Soon League that the argument, submitted by the Home Rule Association against the prohibition amendment, was not filed with the secretary of state within the allotted time period.

The question of right of the governor to appoint committees to prepare arguments against proposals also was subordinated to the question of right of opponents to have their arguments printed, if the proponents were given such right.

Because the legislature has been derelict in providing a method by which arguments against such initiated constitutional proposals are to be printed and distributed to voters is no reason why opponents of such proposals should not be accorded equal rights with the proponents. This seems to have been the rule of reasoning applied by the supreme tribunal.

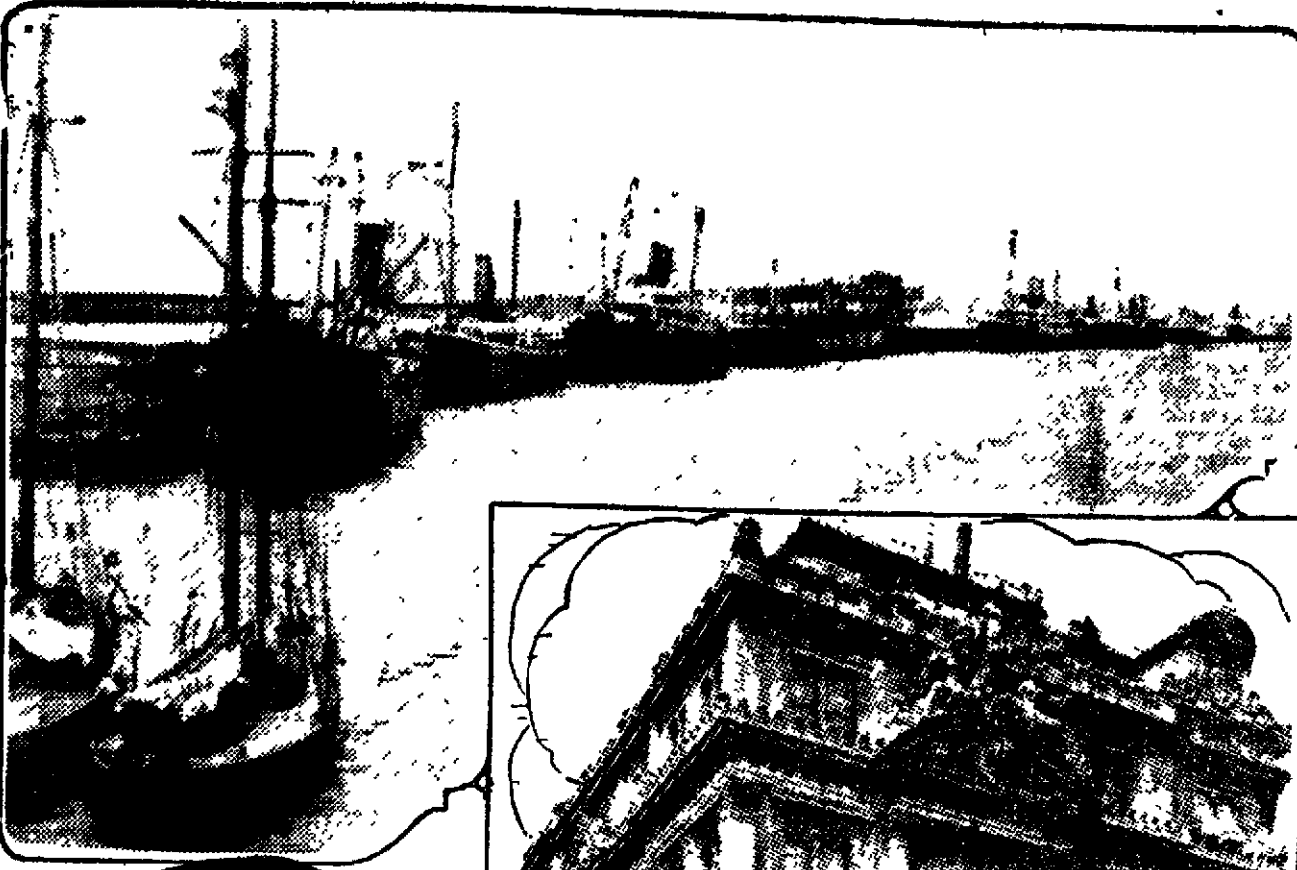

That Attorney General Turner may be sustained by the court in his technical construction of the constitution and the laws relative to the cases, but reversed as to the guiding principles of broad construction and justice, is expected by most attorneys.

Preparations for mailing out arguments both for and against constitutional amendments and laws submitted to referendum, became feverish in the secretary of state's office today as a result of the supreme court's mandamus order issued yesterday directing Secretary Hildebrandt to distribute arguments against the proposed amendments initiated by petition.

According to the law, the amendments and laws submitted to referendum, together with arguments, must be mailed out from the secretary of state's office at least 20 days before election. This leaves only a few days for the work of printing, editing and dispatching the pamphlets.

NEW ORLEANS SUFFERS HEAVY LOSS FROM SEVERE GULF STORM

Shipping along the gulf coast; New Orleans cotton exchange; Governor Hall of Louisiana. More than a million dollars worth of property in New Orleans, as well as considerable shipping on the gulf coast, has been destroyed by the great storm which visited the gulf states last Wednesday. The storm was the worst that ever visited New Orleans.

Seventy Probably Killed In Storm And Millions In Property Damage; Weather Bureau Warnings Heeded

(ASSOCIATED PRESS TELEGRAM)
Baton Rouge, La., Oct. 1.—The death list resulting from the hurricane which swept New Orleans, its vicinity and the Mississippi gulf coast, now is expected to reach sixty-five or seventy. Property damage from latest estimates will mount into the millions. The losses so far as now known are distributed as follows:

New Orleans—13 dead, 200 injured or missing, property loss estimated at \$2,000,000.

Prenier, La.—25 dead, about 20 injured, heavy damage to railroads. Automobiles arriving here from New Orleans early today reported that the work of restoring order in the city was progressing rapidly. Streets are being cleaned of debris. Buildings left in a dangerous condition are being torn down. Railroad traffic from the west into the city has been partially resumed and telegraph and telephone companies are working day and night to restore wire communication to the outside world. It was stated no outside aid would be asked for New Orleans.

Reports from the Louisiana coast south of New Orleans today are meagre but indications are that the loss of life is not heavy owing to ample warnings of the approach of the storm sent out by federal and state authorities.

EARLY REPORTS

Of Conditions in New Orleans Brought by Carrier.

(ASSOCIATED PRESS TELEGRAM)
New Orleans, Sept. 30.—By courier to Baton Rouge, La., Oct. 1.—Nineteen known dead; probably 200 injured, and damage to buildings, wire circuits, railroads, shipping and other property in New Orleans and vicinity estimated at several million dollars was the toll exacted by a hurricane which swept the city Wednesday and was conceded to have been the worst ever experienced in this section. These figures were compiled here late today. Of the known dead ten were white and nine were negroes.

The dead.
Captain C. J. Menges, of Cincinnati, manager of the floating stock of the Monongahela Coal and Coke company.
Stanley Meyers, of Algiers, La.
Wm. Crummins, New Orleans.
John Vahle, New Orleans.
John Crumm, New Orleans.
Michael P. Orine, New Orleans.
Sylvester Diaz, St. Bernard Parish.

Two unidentified sailors of Italian bark Helena.

One unidentified white man washed ashore at West End.

Three negroes lost their lives in Algiers across the river from here and six in this city and suburbs.

That the storm caused heavy property loss and possibly many casualties in southern Louisiana as far west as Morgan City, and especially near Houma, was the fear expressed by many here. Rumors tonight originating from sources south and southwest of here indicated the loss of life would be very heavy, the unverified list growing rapidly.

Railroad men arriving from Morgan City reported no loss of life at that place, but declared the damage serious. The hurricane struck that point late Wednesday night. From indications the full force of the storm apparently swept over the neighborhood of Houma, a city of 5,000 inhabitants, and as that is a country of lowest level it was feared that the zone suffered more severely than others.

The last report received from Houma, at about 9 a. m. Wednesday, stated that many refugees were arriving there from gulf coast points. St. Bernard, adjoining New Orleans Parish was flooded by a tidal wave to a depth of from two to eight feet in the lower section of the Parish. Couriers arriving here today reported.

The property loss was heavy. Crops throughout the district visited by the hurricane were almost totally destroyed, it was reported. Fears also were felt for the safety of residents along both banks of the Mississippi south of here. The last word from the section around the mouth of the river to come yesterday was a wireless message from the steamer Creole, anchored off Port St. Phillip. Captain Jacobs reported that the water was flowing over the levees and that many houses along the banks had been swept away. It was presumed from this report that a number of dwellers in these houses had lost their lives. Captain Jacobs denied that two members of the Creole's crew had been drowned or that he had seen bodies floating down the river. Captain Menges and three members of the crew of the tug Corsair were drowned in the Mississippi off Nine Mile Point, when the Corsair and three fleets of barges sank while the storm was at its height last night. These fleets included more than two hundred barges loaded with coal valued at \$1,500,000. The clearing of debris from the streets has begun and it is expected the city will begin to assume a normal aspect tomorrow. Street car service virtually was suspended until afternoon today. Considering the terrific force of the hurricane and that it practically was continuous for seven hours, it was felt that New Orleans was fortunate to have escaped with so few casualties and the damage it suffered.

A section in the western part of the city about thirty blocks long and fifteen wide was flooded today from one to four feet deep. During the storm the water flowed through most of the streets in small rivers. Mayor Behrman today issued a statement declaring the city had no need of outside assistance. He believed the property loss in the city (Continued on Page 2, Col. 2.)

GAS METERS TO BE TESTED BY UTILITIES COM.

(ASSOCIATED PRESS TELEGRAM)
Columbus, Oct. 1.—Indications of early cold weather and heavy use of gas today led officials of the public utilities commission to prepare to examine gas meter testers owned by gas companies over the state. This work will be started within 10 days and continued until all such apparatus has been examined and found accurate. Each gas company has an apparatus used to test meters. Herebefore the examination of this testing machinery was done by the state sealers of weights and measures, but the last legislature passed a law transferring the responsibility to the utilities commission.

(ASSOCIATED PRESS TELEGRAM)
New York, Oct. 1.—The banking house of Kuhn, Loeb & company will not help to float the \$500,000,000 credit loan to Great Britain and France because it has been unable to obtain assurances that Russia will not be benefitted thereby. Jacob H. Schiff, senior member of the firm, so asserted today in the first formal statement he has issued on the subject.

Members of the big syndicate of banks, trust companies, and private banking houses which will manage the \$500,000,000 bond issue had received today a flood of applications from banks and individuals for permission to participate in underwriting the loan. Although the subscription books have not yet been opened it was stated offers to buy the bonds already have amounted in the aggregate to many millions.

A maximum estimate of the total subscriptions already offered placed the amount as high as \$430,000,000. Subscriptions came from Chicago, Pittsburgh, Minneapolis, St. Paul, Philadelphia, Boston and other cities.

At the office of J. P. Morgan and company, it was said that the aggregate of the sums offered by applicants to take part in the underwriting had not been computed and no statement as to when the syndicate membership would be closed was yet ready.

That some of the subscriptions will be very large was indicated by the statement that one of the most wealthy men in the United had offered \$20,000,000 and that other offers ranging from \$3,000,000 to \$5,000,000 have been made by New York banks or large corporations here.

Sir Edward Holden one of the members of the Anglo-French commission was quoted today as saying that in his opinion the loan was so superior in income yield to anything in London that he expects a large amount of it will find its way to that city.

Both English and French investors already are making extensive applications for it, said Sir Edward. In the announcement of the terms of the loan virtually anybody with \$1,000 to invest was offered a bond at 96 1/4—the price to the syndicate—1 3/4 per cent. under the figure designated as the selling price to the individual subscriber, which was fixed at 98. The apparent conflict was reconciled by the admission of practically all investors to the underwriting syndicate. The investor who obtains a small lot of the bonds at 96 1/4 however, must do so through a bond house or other member of the syndicate, such member simply transferring to him with-out commission, the bonds at the cost price.

When the entire \$500,000,000 is spoken for, it was stated, no more individuals will be permitted to subscribe at 96 1/4.

LONDON PAPERS

Characterize as Unpatriotic Any British Investment in Loan.

(ASSOCIATED PRESS TELEGRAM)
London, Oct. 1.—The financial columns of the London morning papers deprecate as unpatriotic any investment in the American loan by British investors. The Morning Post even calls for the issue of a memorandum by the government, reminding the public that such applications should not be made. The newspaper asks bankers all over the country to discountenance investments of this kind by every means in their power.

The Times says: "No respectable banking or financial house in the city of London will give facilities for such investment."

The Times adds that it believes every obstacle will be put in its way by the American bankers issuing the loan. The newspaper protests against the Manchester Guardian's criticism of the loan as "utterly perverse," adding: "Taxation is a separate matter altogether and nobody could propose to make the Americans pay our income tax in the United States."

LONGEST STEEL ARCH IN WORLD COMPLETED BY TWO RAILROADS.

(Associated Press Telegram)
New York, Oct. 1.—Engineers of the New York Connecting railroad announced today that the longest steel arch contained in any bridge in the world had been completed by joining the two ends of the great railroad bridge over Hell Gate. The arch spans a distance of 1,017 feet from the Long Island shore at Astoria to the shore of Ward's Island, in the East river, and contains 19,000 tons of steel. It is a part of an elevated viaduct and roadway under construction to link the Pennsylvania and New York, New Haven and Hartford railroads extending from Long Island City to Port Morris. The whole structure will cost \$12,000,000.

WILL REQUEST EARLY RECALL OF VON PAPEN

ALL DOCUMENTS FOUND ON
ARCHIBALD NOW IN POSSES-
SION OF DEPARTMENT

They Clearly Indicate German Dip-
lomat Transgressed Diplomatic
Properties.

(ASSOCIATED PRESS TELEGRAM)
Washington, Oct. 1.—Unless Captain Von Papen, the German military attache is voluntarily withdrawn by his government, indications today were that within a short time, the United States would request his recall.

All the papers carried by James F. J. Archibald, the American correspondent involved in the case of Dr. Dumba have now been placed before state department officials, and while final decision will await the return of Secretary Lansing, it became known today that the documents disclose a transgression of diplomatic proprieties on Von Papen's part such as had caused the recall of the Austrian ambassador.

In the list of documents now in possession of the state department are four cipher letters from Dr. Dumba, some from Captain Von Papen and one, it is believed from Count Von Bernstorff, although on the latter point official confirmation was lacking. In the batch, however, were letters from Count Bernstorff, introducing Mr. Archibald.

There is nothing so far as officials would disclose which indicated that the German ambassador had violated diplomatic proprieties.

The state departments description of the correspondence is as follows: "Memorandum of the German ambassador containing his defense made to Secretary Lansing of reported activity of the embassy officials in violation of the American neutrality."

"The unsigned memorandum from 'A Hungarian Editor,' suggesting a means of interfering with American industry."

"Captain Von Papen to the German war office, mentioning the bridgeport arms company, already made public."

"Captain Von Papen to the German war office mentioning the purchase of toluol."

Newark Fire Department Is Asked for Aid by Granville To Extinguish \$3000 Blaze

(Special to Advocate.)

Granville, Oct. 1.—Fire in the Perry block here, late Thursday afternoon caused a damage to building and contents estimated at about \$3,000, and for a time alarmed the village people when some trouble was experienced with hose and fire plugs. Assistance was asked of the Newark Fire department and a quantity of hose was rushed to the village on an interurban car. After a battle lasting more than an hour, in which the volunteer fire department, assisted by Denison students, did splendid work, the fire was extinguished.

The blaze was discovered about 4:30 o'clock in the apartments of Alec Robinson, a barber, who occupied a suite on the second floor. At that time it was burning fiercely. The volunteer fire department was soon in action and hundreds of students and villagers began carrying furnishings from the building. Soon after the fire department got into action trouble was experienced with a fire hydrant when the threads for the hose connection were stripped and it was found necessary to seek another hydrant. The distance of this, ar-

London, Oct. 1.—The French are bearing the brunt of the fighting now in progress on the western front. They are hammering at the second German line in Champagne in the direction of the Grandpre railway and at the same time dropping bombs on the line and stations to prevent the Germans from bringing up reinforcements. Absence of news from the British front apparently indicates that these forces are occupied with consolidating their positions in the strip of territory recently won.

The British forces now in France are estimated at a round million men which will be increased by 500,000. Daily lengthening of the obituary columns of the London newspapers is beginning to measure the price paid by the British for their recent offensive.

There is no notable change on the battle front of the east.

Turin, Italy, Sept. 30, via Paris, Oct. 1.—There already have been several clashes between Serbian and Bulgarian along the frontier, according to reports received here. A Bulgarian patrol at Trichouke is reported to have attacked Serbian sentinels who retreated. The Bulgars crossed into Serbian territory, where they remained several hours.

Bulgarian troops are said to be digging trenches all along the frontier and protecting them with barbed wire entanglements.

Motion Picture Patents Co. Declared In Violation Of Federal Anti-Trust Law

(ASSOCIATED PRESS TELEGRAM)

Philadelphia, Oct. 1.—The United States district court today, decided that the anti-trust dissolution suit against the Motion Picture Patents company in favor of the government.

The Motion Picture Patents company is a holding concern. It was charged by the government that it controlled most of the moving picture patents in the United States, and also had a large interest in the American rights in foreign patents.

The suit was heard over a year ago by Judge Oliver B. Dickinson, whose decision is a sweeping victory for the United States department of justice.

The government charged that the Motion Picture Patents company and other defendants were engaged in interstate and foreign commerce in motion pictures, films, cameras, exhibiting machines and other articles and apparatus used in the motion picture art, in violation of the anti-trust law.

The defendants named in the original petition of complaint besides the Motion Picture Patents company, are

the General Film Company, Biograph, Thomas A. Edison, (inc.), Essanay Film Manufacturing company, the Kalem company (inc.), George Klien, Lubin Mfg. Company, Melies Mfg. Company, Pathe Freres, the Selig Photoscope Company, the Vitagraph Company, Frank L. Dyer, Henry M. Marvin, J. J. Kennedy, Wm. Pelzer, Samuel Long, J. A. Berst, Siegmund Lubin, Gaston Melies, Albert E. Smith, George K. Spoor and W. N. Selig.

The court in its decision states that all the contracts enumerated in the government's petition and the combination therein described were a conspiracy to restrain trade and therefore illegal and that they constituted, with the exception of the operations of the Melies Manufacturing company, a monopoly in violation of the anti-trust laws. With reference to the Melies company, the court said:

"The Melies Manufacturing company, has denied (as have all the defendants) that it was in any sense a party to the combination charged. We have gone all over the proofs (Continued on Page 2, Col. 2.)

drant from the blaze, used all the hose and the firemen feared that a second fire would be necessary, hence the call for assistance from the Newark department.

Rooms occupied by Roberts, Rufus Johnson and Dr. J. W. Rhorer were damaged by fire. Most of the fixtures, in the office of Dr. Rhorer, the village dentist, were removed but much of the property was damaged in the moving.

Roberts' loss was total, his furniture being destroyed. He carried no insurance.

The Perry grocery on the first floor and the E. H. Tinkler restaurant, next door, were damaged by water. The lodge rooms of Oak Star Lodge (Masonic) were damaged by smoke but no water reached the rooms which were located on the third floor.

The blaze gained considerable headway before discovery, because the tenants on the second floor were absent at the time.

Loss on the building is estimated at \$1,000, and with Roberts' \$1,000 and loss to other \$1,000, the total damage is \$3,000.

PAIN WOMAN CRIED

Offered Everything Until Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Florence, So. Dakota.—"I used to be very sick every month with bearing down pains and backache, and had headache a good deal of the time and very little appetite. The pains were so bad that I used to sit right down on the floor and cry, because it hurt me so and I could not do any work at those times. An old woman advised me to try Lydia E. Pinkham's Vegetable Compound and I got a bottle. I felt better the next month so I took three more bottles of it and got well so I could work all the time. I hope every woman who suffers like I did will try Lydia E. Pinkham's Vegetable Compound."—Mrs. P. W. LANSING, Box 8, Allyn, Wash.

Why will women continue to suffer day in and day out or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

COUNTY FAIR RACE RESULTS ON THURSDAY

The crowd at the Licking fair Thursday was a disappointment to the officials. It was not as large as the usual Thursday crowd. This can be accounted for by the fact that Licking county farmers are too busy cutting corn and sowing wheat to leave their work. Had today been a pleasant one the crowd undoubtedly would have been much larger than yesterday as every one was waiting for the big day.

The races were not up to the usual standard and this of course is due to the small field of horses at the track. The fair officials must realize the fact that with at least from a dozen to a dozen and a half county teams competing at the same time, race horses are a premium. The managers which pay the best purses and assist partially with freight bills and stable expenses are the ones which are overcrowded with a class field of fast horses.

The racing program cannot be overlooked. It is the one big feature which draws the crowd. Therefore an effort should be made to secure a good field of horses for with out them there is an apparent apathy and lack of interest. It is poor economy to stint this feature.

The Licking county fair officials worked hard this year to make the fair a success. The exhibits are of a high order and will rank with the best fairs held in the state. The concessions are all properly conducted and liberally patronized. The rain of today will cripple the society financially but the "boosters" will get busy and profiting by the oversight in a few instances where mistakes were made, will start to boom next year's exhibition and with a concerted effort on the part of all will make it one of the biggest and best ever held in the state.

MOTION PICTURE

(Continued from Page 1.)
without finding any which go to making good the charge against this particular defendant. It is therefore excluded from the findings made and the petition against it dismissed.

The court made no suggestions as to how the alleged combination is to be dissolved but requested that a decree be submitted for approval. It is probable the case will be taken to the supreme court. The defendants in their argument laid stress upon the rights of those holding patents to do with their property what they thought best, but the court in its opinion declared that the granting of a patent does not confer a license to do that which the law condemns. The court found that the defendants went far beyond what was necessary to protect patents rights and that their acts constituted a violation of the anti-trust laws.

It was charged by the government that the alleged monopoly was formed in 1908 by virtually all the manufacturers of moving picture films in the country. Under an agreement made by these concerns, it was alleged the Motion Picture Patents company, was made the holding concern of nearly all the patents that have been issued. A list of theatres and moving picture places was prepared and no film exchange it was alleged was allowed to distribute films to any exhibitor except those named on the list. Uniform prices and rules were made, it was further alleged, and if the film exchanges did not observe the orders of the so-called trust their supply was cut off. The suit was filed August 16, 1912, and final argument was heard in December, 1914. The suit was conducted for the government by Edwin P. Grosvenor, special assistant to the attorney general.

A SECOND STORM

Is Developing Over Part of Virginia and Moving Northeastward.

(Associated Press Telegram)
Washington, Oct. 1.—The tropical storm today was sweeping through the upper Ohio Valley in a north-easterly course and a secondary storm has developed over southeastern Virginia, which also was moving northeastward.

Both disturbances are accompanied by rains and the northeast gales and the weather bureau today ordered storm warnings displayed on the Atlantic coast from Norfolk to Portland, Me., and on Chesapeake Bay, and also on the Great Lakes from Port Huron to Oswego.

The storm has greatly diminished in intensity since it passed inland over Louisiana from the gulf of Mexico. It has caused heavy rains in the east gulf, south Atlantic and Middle Atlantic states and the Ohio Valley and western lower lake region. It has been followed by warmer weather in the South Atlantic states where temperatures at much above seasonal average. In the gulf states and extreme southwest however, cool weather prevails.

WIPED OFF MAP

(Associated Press Telegram)
Nashville, Tenn., Oct. 1.—According to railroad officials here persons who visited Rigolets and Dunbar, La., a few miles from Mobile in a boat yesterday, reported that both towns had practically been wiped off the map by the gulf storm. In Rigolets only two houses were found standing, and at Dunbar, the damage was almost as great. The Louisville and Nashville railroad station agent and section foreman at Dunbar were drowned. It is impossible to reach these towns from Mobile now except by boat.

10 CENT SODAS MADE PROBABLE BY NEW RULING

PROPRIETORS SAY THEY CAN NOT AFFORD TO STERILIZE EACH GLASS

By Boiling or Live Steam, and Continuing to Sell Beverage at Five Cents.

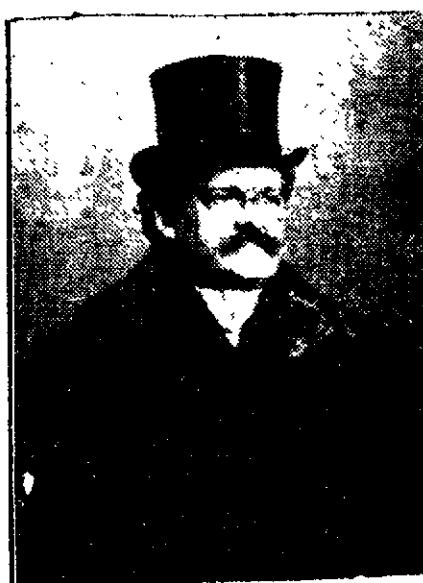

(Associated Press Telegram)
Columbus, Oct. 1.—Ten cent sodas universally in Ohio may be a result of the state board of health's latest ruling that all glasses, spoons and dishes used at a soda fountain must be sterilized in boiling water or live steam, according to complaints which began to pour into the board's office today.

Several confectioners and soda fountain proprietors declared they could not continue to sell "sodas," "dopes" and similar frozen dairies at five cents if they are compelled to install elaborate sterilizing equipment. Fountain managers in small towns made particular complaint.

Board of health officials minimized the significance of these protests. They expressed the opinion that boiling water tanks can be secured at low cost. An alternative which officials admitted might become a general practice is the use of paper soda water cups which can be thrown away after being used once.

IMITATORS OF CHAPLIN WERE BIG FEATURES

OF UNIQUE CONTEST GIVEN UNDER AUSPICES OF MERCHANTS' ASSOCIATION

138 Boys of All Ages Created Amusement for Big Crowd Friday Morning.

Today was Charlie Chaplin day. Charlie and his brothers were out in force, in fact there were just an even one hundred and thirty-eight Chaplins on the street this morning. Had it been a nice clear day instead of a drizzling rain coming down there might have been a few hundred more Charlie Chaplins in town.

The Chaplin contest held under the auspices of the Retail Merchants' Association, was a decided success. In spite of the drizzling rain hundreds of people thronged the square and followed the young Chaplin imitators in the parade. The committee having charge of the affair for the Retail Merchants' Association also had charge of the automobile parade yesterday and was composed of J. M. Terday and was composed of J. M. Terday, chairman, W. C. Kuster, S. E. Alban, T. J. Evans and G. E. Besanancy. These gentlemen are enthusiastic to a great deal of credit for the success of both affairs.

The young Chaplins had been requested to meet at the Auditorium at 9 o'clock this morning and they began gathering long before that hour. They brought all their young friends with them and within a short space of time the street in the near vicinity was packed with an enthusiastic bunch of youngsters, both boys and girls. The Chaplin boys were lined up by W. C. Kuster of the committee and J. V. Haas, secretary of the Merchants' Association. Chief James Sheridan assigned Patrolman William Hinger and Ed Hurlbough to look after the crowd and preserve order.

When the Chaplins were lined up in front of the Auditorium the original Charlie himself would have imagined that he was one of many twins had he saw them. There were Charlie's of every description, red-headed, blondes and brunettes. All sorts of clothes had been caed into requisition and many elder male members of families today will hunt for their coats and shoes in vain. The boys certainly displayed much ingenuity though in preparing their moustaches. Some of them were made out of shoe-brushes, pieces of cloth and leather, while one youngster had sewed thread together and then stuck it on his lip with gum. Another boy had cut off a piece of his sister's tresses and used that. Ordinary blackening however, was used by many. Many of the make-ups were really clever and, proved that the boys had taken great interest in the contest.

The youngest lad in line was Frankie Winters, four years old, residing with his parents in South Sixth street. He was there with his brother and was having just as much fun as any one. The ages of the contestants ranged from four to fifteen.

Two prizes had been offered by the committee, five dollars for the best imitation and three dollars for the best make-up. Each boy in line was to receive fifty cents and when the boys began to gather the members of the committee thought for a time that every youngster in the city was going to enter the contest.

The judges selected to name the prize winners were Messrs. Samuel Gallagher of the Lyric and Gem theatres, Abe Thomas of the Grand, and G. A. Siebanoller of the Alhambra. The parade was formed at ten o'clock and the Chaplins marched around the square performing their various stunts on each side of the same.

After reaching the south side of the square, the boys were lined up, all having been previously numbered, and the judges made their award, giving Donald Cross of the Mt. Vernon road first prize and Clare Foley of North Fifth street second prize. The boys were then taken to Wagner's studio in the Arcade where a picture was taken of them in costume after which they were invited to dinner at the Serv-self restaurant in the Arcade annex by the proprietor, Mr. Will C. Kuster, and it is needless to say that they enjoyed it.

Donald cross, winner of the first prize, is a son of Mr. and Mrs. H. A. Cross, his father being a well known traveling man. The boy, twelve years of age, is a natural born mimic. He put on the Chaplin lunts like an old professional and the judges decision met with hearty approval of the spectators. Donald had some professional experience, having opened the "Dolly Dimple" at the Auditorium about two years ago. He has also sung in public a number of times, having a rich contralto voice.

Clare Foley is a son of Mr. and Mrs. W. E. Foley, his father being a train dispatcher for the B. & O. railway. Clare's make-up was perfect and he looked the part. He was picked for a winner long before the parade ended. He too was very clever in imitating and the judges decided that he was entitled to the second prize.

The Chaplin "stunt" was a novel idea and it certainly would have attracted hundreds more of spectators had the weather been pleasant. Chairman Mitchell of the committee had the boys line up in the lobby of the Auditorium theatre after the parade, the use of same having been given to him by Manager Harry English and as each boy turned in his number he was handed a fifty-cent piece.

The Chaplin boys all enjoyed themselves, had a "bully" time as one expressed it, and all are desirous of entering a similar contest some time in the future.

MARSHALL WILL START SEASON FOR DENISON U.

SATURDAY MARKS NORMAL OPENING OF GRIDIRON SEASON IN OHIO

West Virginia Team at Granville—Newark High Plays Utica in First Game of Schedule.

Ohio colleges tomorrow will formally open the football season for this year. A few scattering games were played last Saturday but the real opening of the season occurs with the games scheduled for this week.

Locally, interest centers in the game at Granville when Marshall college from Huntington, W. Va., will try out the strength of the Denison eleven assembled by Coach Livingston and incidentally, West Virginia fans will get a line on the ability of the team being trained by Boyd Chambers, a graduate of Denison and one of the best college pitchers ever developed by that school.

Newark High also plays the first game of the regular schedule. Utica has this honor and the Washington township youngsters, cheered by the success of their last season's eleven, do not fear defeat tomorrow.

Among the state games, of importance, that between Ohio Wesleyan and Ohio State is the most important. The result of this game will be watched with much interest by all Ohio college men.

Tomorrow's schedule is as follows:

Newark High vs. Utica High at Utica.

Kenyon vs. Otterbein at Westerville.

Akron vs. Miami at Oxford.

Case vs. Marietta, at Cleveland.

Wittenberg vs. Earlham, at Richmond, Ind.

Ohio State vs. Wesleyan, at Columbus.

Cincinnati vs. Georgetown, at Cincinnati.

Reserve vs. Hiram, at Hiram.
Ohio University vs. Ohio Northern, at Athens.
Denison vs. Marshall, at Granville.
Mt. Union vs. Muskingum, at Alliance.
Wooster vs. Heidelberg, at Wooster.

BUCKEYE STAKE FEATURE TODAY; NEW MARKS SET

(ASSOCIATED PRESS TELEGRAM)

Columbus, O., Oct. 1.—Interest in today's Grand Circuit racing program centered in the Buckeye \$5,000 stake for 2:12 trotters. Three other events in addition to the 2:09 pace, which was unfinished yesterday are on the card. They are the 2:11 pace, 2:15 trot and 2:03 pace with purses of \$1,000 each.

Three heats of the 2:09 pace were run yesterday, Fern Hal capturing the first two and Fred Russell the third.

The first real record-breaking since the Grand Circuit meeting started at the Driving Park was furnished today when Russell Boy, the leading money-winning pacer of the season, finally won the 2:10 pacing stake after a battle of six heats. Driven in masterly fashion by the veteran "Pop" Geers, the Illinois stallion won the two heats necessary to land the money, both in 2:03 1-4, four heats having been raced in the event on Wednesday. He set a new record for a fifth heat as well as for a six-heat race, and equaled the record for a sixth heat. Peter Volo and Etawah, the pair carded to try for some world's records, failed, but the quality, as well as the quantity, of the racing was good, 19 heats being raced in addition to the time trials.

Judge Ormonde, a local favorite, had won two heats in the 2:10 pace yesterday. Hal Boy and Russell Boy each having one, and Ormonde was sold favorite in the auctions before the start today. In spite of a vicious flogging in both heats raced he was not a factor, the battle being between Hal Boy and Russell Boy.

Ben White, driver of Queen Abess, drew a \$100 fine from the judges for refusing to bring his mare out for the finish of the race today when ordered to do so by the officials.

The Indiana product Single G was selected as an odds-on favorite for the 2:07 pacing stake, but it looked like he was in for a beating when the local mare Beth Clark romped off with the first two heats, the first in 2:03 1-4. Gosnell took the favorite

away fast in the third heat, and raced Beth Clark into the ground in 2:03 1-4. In the next two heats Our Colonel was the contender, bringing the winner to a hard drive to start off his rush in the final heat in 2:03 1-2; the fifth heat record until a few minutes before, when Russell Boy had cut it to 2:03 1-4.

Mirthful, the former erratic trotter, but now a race mare of class, was favored for the 2:08 trot and won in straight heats, Geor's consistent colt St. Frisco racing her all the way each time and forcing her out in 2:06 1-4 in the second heat. General Todd had the easiest race of the day, winning the Horseman Pacing Futurity, nothing in the field being able to make him extend himself.

Camel, from the Cox stable, the original favorite for the 2:13 pace in which Dwight Logan won two heats Wednesday, won the first heat yesterday, but was beaten in the fourth by Tramp-a-Bit, and Dwight Logan, fresh after "laying away" a heat, beat her in the deciding round.

The Canadian mare Fern Hal won the first two heats of the 2:00 pace the next going to the favorite, Fred Russell, after which the race was postponed.

Etawah was carded to attempt to beat 2:03 and Peter Volo to go against 2:02, and both trotted right at those marks, according to the official timers, many catching the Etawah mile considerably slower. Geers later worked Etawah a mile in 2:05 1-2, the last half in 0:59 1-2. Walter Cox at North ea othehtelzagadimeemil mtrw so gave his three-year-old trotter North Spur a time record of 2:03 3-4.

BOWLING

The Elks won two out of three games from the leading Meyer & Lindorf team last night in the United league games on the Pastime alleys. The Elks had a fine chance to go over the 1,000 mark in the second game but two splits in the final frame kept them out of the charmed circle. The last game was one of the most hotly contested games ever seen on these alleys. "Casey" Jones had high score and Allen high average.

BOSTON WINS FLAG THOUGH IDLE, THROUGH DETROIT'S DEFEAT

Boston, Oct. 1.—There was only a ripple of interest in the city yesterday when word came of Detroit's defeat and the consequent clinching of the American championship by the Red Sox. The outcome of the pennant race had been regarded as a foregone conclusion since the Tigers were routed in the last three games of the sensational series here two weeks ago.

The Red Sox players learned of their desires as they boarded a train for Washington, where they play today. During the afternoon they had watched the Philadelphia Nationals, their rivals in the world's series competition which begins next week, in action against the Braves.

With the exception of Captain Barry, the Red Sox will present full strength in the remaining league games. Barry, whose coming from the Athletics in midseason has generally been regarded as the deciding factor in Boston's success, was left to maintain a watch on the play of the Phillies. A carbuncle, which has troubled him, has nearly healed.

The Sherwood Suit.

The verdict of the federal jury at Columbus in awarding damages to the Sherwood Improvement company for \$16,000 and damages to the extent of one dollar to the city of Newark in the United States government's condemnation suit may be satisfactory to the Sherwood company but is far from satisfactory to the city of Newark, and because of this fact an effort will be made by the city to obtain a new trial. Solicitor Norpell is preparing to file a motion for a new trial in Judge Sater's court where the case was tried to a jury this week.

The case grew out of the government's effort to obtain possession of the corner piece of ground which the Sherwood Company gave to Newark city for park purposes at the time the government paid \$18,500 for the rear of the Sherwood lot for a post-office site.

The city accepted the gift from the Sherwood company, so both the city and the Sherwood company were made parties to the suit. Several witnesses said that to build the post-office on the corner would damage the Sherwood hotel property to the extent of \$35,000. Other witnesses placed the damage as low as \$5,000. One witness for the city fixed the value of the city's park property at over \$17,000. On the other extreme one witness said he thought the city should have \$1,000 for surrendering the park property. Not one of the lawyers in the case contended that the city should not be compensated and the judge in charging the jury said that the city had an interest in the property that should be recognized. In spite of the evidence and instructions of the court, the jury gave the city \$1 and the Sherwood company \$16,000.

First the motion for a new trial is to be disposed of. Then possibly the question of appeal may be considered. The government is not obliged to accept the jury's award but in case the verdict stands, the government has the right to take the property by paying \$16,001.

If the government should abide by the jury's verdict and if the verdict stands, the new federal building will be built upon the Sherwood site. If the government rejects the proposition another site for the building will be selected. Jones and Jones, C. W. Miller and A. T. Seymour represented the Sherwood company; and Ralph Norpell, City Solicitor, represented the city in the trial of the case this week.

Employer and Employed.

John D. Rockefeller, Jr., has eaten, washed, slept and dug coal with his Colorado miners. The experience will do him good. Such visits to his property may solve the problem of unrest and absentee ownership in a great industry.

In most cases the unfortunate chasm between capital and labor can not thus be bridged. A plant may be owned by a thousand different persons, most of whom possess but a few shares of stock. It might be all the stockholder's dividends

to visit the place and see how his work people are faring. Ownership has split up all over the country, and the corporation has ceased to have any individuality. The owners are inaccessible and never get together to consider any general policy.

In the old days the manager of a business lived on the spot. If there were grievances, he talked it out face to face, which helped adjustments. Today the executive management is commonly given to officers who may own but a few shares in the company. Their success depends on maintaining or increasing dividends. They are not in so good a position to grant favors as an individual owner would be.

The stockholder is pictured as a hard hearted and indifferent taskmaster. Actually he may be kind and charitable. He knows nothing about the business save the few details gleaned from a routine annual report. How far is he responsible for the condition of the work people? What can he do for their welfare? Corporation stockholders may well reflect that the best results are obtained only on a basis of a comfortable working population. If the employees are housed in a sordid tenement slum, unsanitary and forbidding, there will be discontent. Stockholders may well make it clear to their hired managers that they favor a liberal policy, not merely from motives of humanity, but as the best business policy in the long run.

Those 2,000,000 copies of New York's new constitution being distributed for the voters to read, will be considered as very available missiles to throw at cats on the back yard fence at 2 a. m.

After blaming the world because they have no money, some people wire in to the brokers to buy a war munition stock that costs five times as much as it did a few months ago.

There is profound dissatisfaction among the parents because in the eight minutes which the teacher can give to each pupil, she does not give them all a liberal education.

The only trouble with the cattle shows is that it costs so much money for prizes and feed of the cattle, while the people come to see the races and the midway.

It will take colder weather before the modern girl feels perfectly comfortable in her low neck waist.

Accepts Mr. Wilson's View.

(New York Sun.)

Of the "shakeup" in high commands in the German navy a dispatch from Berlin says that the new Chief of the General Staff is committed to the submarine policy which requires U-boat commanders not to torpedo passenger steamships without warning and to give the crew and passengers an opportunity to escape. Also vessels are not to be shelled or torpedoed on the mere suspicion that they are attempting light or are bent upon ramming or firing on a submarine. When it is said that the new Chief of Staff is "committed" to observance of the rules of international law in submarine warfare the meaning obviously is that he does not belong to the von Tirpitz faction of the navy, which advocates "rightfulness" and of which von Reventlow is the press agent.

Whatever the explanation may be, the German Government is now disposed to accept, perhaps not literally, President Wilson's view of how submarine warfare should be conducted, as set forth in his note of July 21. Mr. Wilson contended for determination of the cargo of a merchant ship before the launching of a torpedo by the submarine. This does not seem necessary to the Germans, and if they are well served

by their secret service agents they can dispense with an inspection of the cargo. But in a general way the Germans agree (to quote from the note of July 21) that "the lives of non-combatants may in no case be put in jeopardy unless the vessel resists or seeks to escape after being summoned to submit to examination." Examination of the cargo of the submarine officers, following their instructions, do not consider always necessary. Usually they summon the intercepted ship to stop in order to be sent to the bottom. In view of the changed conditions of naval warfare, Mr. Wilson cannot insist upon visit and search in all cases.

In the note of July 21 Mr. Wilson said that "the Government of the United States cannot believe that the Imperial Government will longer refrain from disavowing the wanton act of its naval commander in sinking the Lusitania or from offering reparation for the American lives lost." Germany seems to be preparing to disavow and make reparation. Can there be a reasonable doubt of it when she gives her naval commanders instructions to conform their operations to those principles of international law which Mr. Wilson maintains should govern submarine warfare? It is not unduly optimistic to consider that no new cause of friction growing out of the war at sea need arise between the two countries.

Mr. Wilson expressed himself in a prophetic spirit when he wrote that "if a belligerent cannot retaliate against an enemy without destroying the lives of neutrals as well as their property, humanity as well as justice and a due regard for the dignity of neutral Powers should dictate that the practice be discontinued." Germany now subscribes to that judgment.

Is It a Woman's Job?

(Rochester Herald.)

Gertrude Atherton not infrequently says a good thing, but quite as often she says a foolish thing, and of all the foolish things that she has ever said, or is ever likely to say, none could be more foolish than this dictum which came recently from her pen: "Writing is a woman's job. Men ought to do things, not write about them. When a man does nothing but write his hands get soft and his character, too. He might as well be crocheting."

Gertrude Atherton is a feminist, and it is one of the characteristics of the feminists to assume that they know just what a man ought to do, and what he ought not to do. They are a sad lot and a sour lot—these feminists. Such writing as is only too common in America today may indeed be a woman's job. But nothing is more certain than this: That all the greatest works of the world's literature have been written by men. No great work of science ever came from a woman's pen, no great work of philosophy, and hardly a great poem. If exception be made of a few fragments that emanated from the abnormal Sappho. Even in fiction there are not over six or seven great women writers, and these women writers were half-masculine. The more womanly a woman is, the less is she fitted for the production of great literature. To write masterpieces is a man's job, not a woman's, Gertrude Atherton to the contrary notwithstanding.

TAKE A LOOK

If You Have Time

Buck Kilby says his notion of unedicated money is that paid out to see a prize fighter perform in a theatre.

If women really want the ballot they should cry for it. Broadly speaking, a woman can have anything for which she is willing to shed tears.

There is a controversy as to what constitutes the ideal household pet. We can settle it. The ideal household pet wears petticoats.

If a man is sure it won't cost him anything he generally is for it.

If it is a thing a woman never is likely to need, she is pretty sure to put it carefully away.

A good many men are remembered only for the reason they wore mustaches.

A country woman's idea of shiftlessness is to trade a cow for a cottage organ.

It is to be regretted, of course, but do not permit the fact that the great herds of buffalo have all been wiped out to interfere with your business.

Rippling Rhymes

THE STINGY MAN.

His fame is dingy—the man who's stingy—men greet him with a frown; 'He's always pinching, the nickels clinching, the tightwad of the town. He's never willing to give a shilling when we pass around the hat, to give some pauper a meal that's proper, or heat some widow's flat. He lives to collar the large round dollar, with coin to dine and sup; he's tight as blazes; no honeyed phrases can make him loosen up. Yet some are saying, "He's good at paying his bills right up on time; he asks no credit—he seems to dread it—he owes no man a dime." And some who blame him and try to shame him as one old tightwad dub, are cheerful fakers who owe the bakers and grocers for their grub. I hold it wiser to be a miser, and pinch coin till it bleeds, than one who wanders round and squanders the coin his butcher needs. I hold it cleaner to eat stale wiener and save three moiden cents, than be a glutton on stand-off mutton, like some hail-fellow gent.

Typographical Errors.

Yes, the country weekly has many typographical errors each issue. The wonder is that more errors do not escape the eye of the proof-reading "editor" who is jack of all jobs. For instance the Transcript had an advertisement in which the blackest line was to read "The Busy Spot," and I came mighty near being printed "The Busy Spot." Just a little p-out, y'know. And in the same issue, a millinery adv. where the adv. writer spoke of "Chic Hats for Women," we came near having it read "Chick Hats." Just fancy! Few women care to be classed as "chicks" although all pose as being young—regula spring chickens, in fact. But, the point is that we caught both of those mistakes, choked the busy sot and nipped the chick. Just a little k-in y'see?—Dresden Transcript.

Forecast for Lansing.

Nothing that Secretary of State Lansing has said since he was placed at the head of the State Department could be construed as a political play for position. Nothing in his life before he was called to his present position suggested that he had any political aspirations. But New England political experts are figuring on him as a United States Senator to succeed Senator O'Gorman, of New York, when that gentleman's term expires. The seat will be vacant in March, 1917.

By that time it is expected, for eign affairs will be such as not to require the service of Mr. Lansing, provided he should decide to enter active politics. It has been said that Mr. Lansing has never had any political training. This is a mistake. When Roswell P. Flower was a candidate for Governor of New York Mr. Lansing was his manager, and it was a campaign that required energy and judgment. Mr. Lansing showed that he had both. Secretary Lansing is one of the possibilities of politics for a good many years.—Richmond Times-Dispatch.

Democratic Tariff Helps.

Demands upon the blast furnaces of the eastern part of the State are unprecedented. The merchant furnaces, having less capital, have not rebuilt their plants as the great steel companies have, but the capacity of some of them has been increased by the addition of elevators and charging and casting machinery, and others will have these improvements as fast as they can be provided. While the Pittsburgh furnaces are wondering if the lake steamers will bring down enough Lake Superior ore to supply them during the period of closed navigation, the furnaces accessible to the Atlantic seaboard use imported ore very largely. They can get cargoes of ore at any season, and their interests have been greatly promoted by the change of the Underwood tariff in ore duties.—Philadelphia Record.

TREAT CATARRH BY NATURE'S METHOD

Every Breath of Hyomei Carries Healing Medicated Air to the Infected Membrane.

Nearly every one who has catarrh knows how foolish it is to try and cure it with sprays, lotions, and the like. Temporary relief may be given but a cure seldom comes. Until recently your physician would probably have said the only way to help catarrh would be to have a change of climate; but now with a simple preparation called Hyomei you can carry a health-giving climate in your vest pocket, and by breathing it a few minutes four times a day successfully treat yourself.

The complete Hyomei outfit is inexpensive and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a life time, and if one bottle does not give permanent relief, an extra bottle of Hyomei can be obtained at any time for a trifling sum. It is more economical than all remedies advertised for the cure of catarrh, and is the only treatment known to us that follows nature in her method of treating diseases of the respiratory organs.

T. J. Evans sold a great many Hyomei outfits and the more he sells, the more convinced he is that he is perfectly safe in guaranteeing to refund the money if Hyomei does not relieve.

COLD WEATHER RHEUMATISM

Why should rheumatism, a disease of the blood, be worse in cold weather than in summer?

The rheumatism poison in the blood is the predisposing cause of the disease. If you have the taint in your blood you may have rheumatism whenever the exciting cause stirs it to action. Cold weather and dampness are exciting causes of rheumatism. They excite to action something already in the blood, something that you must get rid of if you would be free from rheumatism.

What this something is, nobody knows. Not very long ago it was thought to be uric acid. Many doctors now think it a microscopic organism or a specific bacillus, but they cannot find the bacillus. It is a known fact that in rheumatism the blood becomes thin rapidly, that building up the blood relieves the rheumatism and that there will be no return of the rheumatism as long as the condition of the blood is maintained. Dr. Williams' Pink Pills are recommended for rheumatism because they keep the blood rich and red and free from rheumatic poisons.

The free book, "Building Up the Blood," tells all about the treatment. Send for a copy today to the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

Society

Mrs. Edwin Haughey of 100 North Fourth street, quietly celebrated her eighty-second birthday anniversary, Wednesday. Quite a number of her friends called on her during the day and evening. She is enjoying the best of health.

Mrs. Ray Peepers was hostess to the Myrtle Club Wednesday evening at her home in Roe avenue. One new member, Mrs. Marvin Penny, was initiated into the club. After the business of the evening was over the time was pleasantly spent in needlework. Mrs. Archie Scanlon and Mrs. D. B. Young were the winners of the contest prizes.

At a late hour a delicious luncheon was served to the following members: Mesdames Archie Scanlon, William Ryan, Carl Hime, Leah Cramer, Edgar Ryan, Harvey Vole, D. B. Young, Marvin Penny, Eugene Smith, Harry Dewalt, Ray Peepers and David Peepers.

BAIRD-BAILEY.

Beautiful appointments in yellow and white marked the wedding of Miss Helen Bailey and Mr. Elmer E. Baird of Newark, which took place Wednesday evening at 8 o'clock at the home of the bride's father, Mr. Frank P. Bailey of Maple avenue. The ceremony took place in the back parlor before an embankment of goldenrod. The ritualistic ring service of the Presbyterian church was read by the Rev. G. Russell Hageman of the Forest Avenue church. The guests, numbering a half-hundred, included only relatives and the most intimate friends of the principals. The bride was quaintly gowned in her mother's wedding dress of white satin. Beautiful marigolds enhanced the decorations in the back parlor and in the library rich yellow dahlias were used. In the dining room a basket of exquisite yellow chrysanthemums, tied with a huge bow of tulle, formed the centerpiece. A profusion of flowers from the Bailey gardens and conservatory were used in the decorations, and baskets of these adorned the newell posts of the handsome stairway.

Mr. and Mrs. Bailey left in the evening for a wedding tour, after which they will take up their residence in Newark, where Mr. Baird, who is a railroad man, is stationed. Among the out of town guests were the Rev. and Mrs. Franklin and Dr. and Mrs. Willard Rank, all of Newark.

The many friends of Mrs. Charles McKnight very pleasantly surprised her at her country home, one mile south-east of Newark, Sunday, September 26th, it being her birthday anniversary.

Those present were Messrs. and Mesdames Leonard Smith, Barton Owens, Barton Tavenner, Edward Beener, Frank Darnes, Edward Williams, Orin Siegler, Martin Richards, William Meacham, William Davidson, David Tavenner, Henry McKnight, Ed Cotterman, James Taylor, Carl Ritchie, Fred Kochendorfer and son, Charles McKnight, George Richardson and Adelbert Ewers, Messrs. Benner, Cary Wolfe, Chester Smith, Ross Ewers, Balcorn Wolfe, Loaten, Tavenner, Laurence Meacham, Fred Holphrey and Stanley McKnight; Misses Edith, Florence and Janette Smith, Fay Helphrey, Clara May Cotterman, Ream Benner, Beulah Darnes, Mary and Della Brown, Olive, Frances and Esther Tavenner, Hazel Taylor, Lois Wolfe, Mary Emma Ritchie and Margaret Taylor, Mrs. E. A. Siegler, Mrs. Helphrey, Mrs. Maria Chilcoat, Mrs. Rachel McKnight, and Mrs. Adelaide Stevens, Master Rolan Tavenner, Edwin and John Dares, Clarence Smith, Herman Siegler and Dorman and Orlo Ritchie.

Miss Anna Lanery entertained at her country home last Thursday evening in honor of her guest, Miss Sarah Henslee of Zanesville, Ohio. The evening was spent in music and games after which dainty refreshments were served to the following: Misses Sarah Henslee, Marie Horner,

Weak Women!

An Ohio Woman Testifies.

Warren, Ohio.—"I have found Dr. Pierce's Favorite Prescription just the medicine for a badly run-down condition and female trouble. I was dragging around, neither sick nor well. I used 'Favorite Prescription' for two months and it made me feel like a new woman. I am most pleased to recommend it. Then I used 'Golden Medical Discovery' to the extent of six bottles when weak and it was just right for the troubles connected with that condition."—Mrs. L. B. ALLEN, 133 Belmont St., Warren, Ohio.

At the first symptoms of any derangement of the feminine organism at any period of life the one safe, really helpful remedy is Dr. Pierce's Favorite Prescription.

Tens of thousands of women have taken it with unflinching success for diseases of a womanly nature. Dr. Pierce's Favorite Prescription is a true friend to women in times of trial and at times of pain when the organs are not performing their functions. For headache, backache, hot flashes, catarrhal condition, bearing down, general condition, mental depression, dizziness, fainting spells, lassitude and exhaustion women should never fail to take this tried and true woman's medicine.

Prepared from nature's roots and herbs, it contains no alcohol nor narcotics, nor any harmful ingredients. Is either tablet or liquid form. Write Dr. Pierce, Invalids' Hotel, Buffalo, N.Y., to-day. 136 page book on women's diseases sent free.

The annual district meeting of the district officers of the Woman's Missionary Society of the First M. E. church was held at the home of Mrs. F. M. B. Windle in North Fourth street on Thursday afternoon. Mrs. Windle is secretary for the district and the hours were devoted to business pertaining to the society. Dinner was served in the evening to seven of the officers present—being Zanesville, Granville and Newark.

Mrs. James R. Cooper entertained with a prettily appointed dinner party at her home in Charles street on Thursday evening honoring Miss Eleanor Beecher whose marriage to Mr. Kenneth Farmer takes place next week. The table was centered with garden flowers, and blue and white canopies shaded the candles. The following were the guests: Miss Eleanor Beecher, Mrs. Fred Warner, Misses Katherine Sedgwick, Lenora Phillips, Mary Maholm, Louise Elliott, Leontine Moore, Gladys Beecher and Frances Courtier of Pataskala.

In Milady's Boudoir

By Gwen Sears

Very low heeled footwear is inimicable to the beauty of foot, instep and ankle, woman's foot requires some support under the bones of the arch which are more delicately adjusted than the bones of a man's foot, so women should wear a moderately high heel in all her boots, slippers and boudoir mules from girlhood to old age if she desires to retain an arched instep, a trim slender ankle, and a sprightly step.

Some women who are very proud of their feet never wear slippers at all out of their bedrooms or occasionally with a dinner gown. For walking, dancing and standing about in formal costume, button boots that support the ankle are donned, and the high buttoned boot now fashionable, comes in so many fetching styles and shapes that one may suit every need of the days occupation with correct and comfortable footwear.

The feet should be bathed in hot water at night, and dipped in cold water in the morning, to keep the flesh firm and resistant. Feet bathed only in hot water are apt to be soft and flabby, and easily acquire corns and callous flesh. Once a week rub the soles of the feet with half a lemon. Then rub a little vaseline into the skin with the palm of the hand. Callous places should be kept down with a bit of sandpaper or a manicure tile, but the foot treated to a dash of cold water once a day and rubbed with vaseline and lemon once a week will not be likely to acquire callous places.

The toes may be massaged at the tips to keep them taping and supple, and the nails may be treated like the nails of the fingers, a bleach being applied with an orange stick under the rounded ends of the nails and the cuticle being pushed back carefully to preserve the curve at the base of the nail.

LICKING

The Home Coming here last Sunday was greatly enjoyed by all. The pastor had charge of the services in the morning and Rev. Stull of Newark in the afternoon. After which we had the roll call, about seventy-five responding.

Mr. and Mrs. Burt Johnson and Miss Marguerite Johnson of Johnston spent last Sunday at the home of Mr. and Mrs. Otto Thorp.

Mr. John Vickers and niece, Miss Wahueta Sayers of Jacksontown spent last Sunday at the home of Miss Getrude Black.

Mrs. John Larimore of Granville is visiting at the home of her daughter, Mrs. J. R. Black.

Mr. and Mrs. J. F. Moore and son Fred and wife of Newark attended the home coming at this place last Sunday, also Mr. E. E. Norris, Miss Willis Fulton and son Fred, Miss Hill, Mr. George Davis, Mr. and Mrs. Frank Helmke and sons Donald and Gerald, Rev. Stull and wife.

Mr. R. L. Black and family and Mrs. J. R. Black attended the funeral of Miss Sade Mitchell, near Croton last Thursday afternoon.

Miss Helen Harten visited relatives at Thurston last week.

Miss Viva Orr after a three weeks' visit in Mansfield returned to her home last week.

Miss Effie Messich has gone to Columbus for the winter having work at one of the fraternity houses.

We were glad to welcome "Mother Blaney" at the Home Coming last Sunday. She lives in Hebron and will soon be ninety-two years of age.

The condition of Miss Ella Clinia of Hebron remains about the same and is not very encouraging. Mrs. J. R. Black and mother, Mrs. W. W. McCarty spent Tuesday at the home of Mr. and Mrs. Will Larimore of Union Station.

WHAT IS IT?

**PUGILISTIC
STUNT NOT
ON PROGRAM**

A man and woman, arrested last night at 7:30 o'clock for being drunk, put on a pugilistic stunt which was not on the county fair program, according to police officers who made the arrest. The couple told the officers that their homes were in Centerburg and Croton and when the officers took them into custody, the woman had just finished kneading her male companion's hair with her fist for the third time.

In police court each drew a fine of \$5 and costs and promptly paid the amount from a pooled purse of \$30 which they were able to scrape from their pockets. Earlier this morning the woman entertained the guests at the city prison with a bottle of whiskey and a song.

Two other drunks and five train riders drew similar fines.

FLORA A. LEVITT

True Secret of Keeping Youthful Looking

(The Beauty Seeker.)

"The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these requisites, poisonous waste products remain in the system, polluting the blood and lodging in various organs, tissues, joints. One becomes flabby, obese, nervous, mentally dull, dull-eyed, wrinkled and sallow of face."

"But to get liver and bowels working as they ought, without producing evil after-effects, has been the problem. Fortunately, there is a prescription of unquestioned merit, which may now be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple, or its root, which has been called 'vegetable calomel' because of its effectiveness—though of course it is not to be classed with the real calomel of material origin. There is no habit-forming constituent in 'Santal tablets'—that's the name—and their use is not followed by such a reaction as that of the real calomel. On the contrary, these harmless vegetable tablets tend to impart tone and elasticity to the relaxed intestinal wall. Santal tablets, which may be procured from any druggist—a dime's worth will do you a great deal of good—will not only prove a revelation to any constipated, liver-troubled person."

Chief Cause of Pimples, Blisters, Sallow Skin

(Messenger of Health.)

Unmistakable eruptions, pimples, boils, blotches, sallow and muddy skin, usually are due to a sluggish liver, a constipated bowel—and a polluted blood stream as a consequence. A remedy in such cases is to resort to outward applications, which can never have natural, permanent results. If more people only knew it, there is a very simple remedy, to be found in any drug store, which is as effective as it is harmless and quick acting. It is an old formula, long recognized by the medical profession, which has been put in tablet form, and at such small cost no one need ever be deprived of its wonderful benefits.

"Santal tablets"—that's the name—are as truly vegetable and there's no habit-forming ingredient. You need only get about a dime's worth, and swallow one at bedtime to make sure. When the action in the morning is so easy, so soothing, and instead of a weakling after-effects, you feel truly refreshed and invigorated. Santal tablets are not only the most reliable remedy for constipation and torpid liver, but offer the surest, most sensible treatment for complexion difficulties of the character mentioned.

Great Demand for New Constipation Remedy

They say that the advent of the "Santal tablet" as a vegetable substitute for calomel has resulted in an extraordinary demand for this remarkable product. It seems to have found a ready market with those afflicted with chronic constipation, who were quick to recognize its advantages over calomel and the usual laxatives.

Santal tablets, aside from their efficacy, doubtless owe their success largely to a tendency to aid in bringing about natural functioning—instead of encouraging the "habit" habit. When a person takes these tablets, the members of the organs involved, they exert a healing influence. Instead of weakening, they add tone to the intestinal wall. And they work so easily and gently, that they are of course preferred on this account to the violently acting drugs. The fact that the popularity of Santal tablets. One need never fear any habit-forming, or any other tablet upon retires, to be convinced that the most reliable remedy for constipation, torpid liver, and their many evil consequences, has finally been found. Santal Tablets.

"YOU THAT WOO THE VOICES"

Exercise for Chest Muscles, Diaphragm and Vocal Chords Combined With Deep Breathing. Posed by Miss Grace Gibson.

"Frequently safety lies in retreat," gives the breathing space necessary for fresh effort. This is made true by the explanation and use given the Advocate's readers in an article XXIV written by Anna Louise Shaffer.

By ANNA LOUISE SHAFFER
(Copyright, 1915, by James Keeley)

...not the voice the harp of the soul."

consideration the complex question of beauty—which may be simplified by getting it down to the basis of health through proper exercise and hygienic living. We must not overlook the appeal of the voice.

Through no expression of which we as human beings are capable do we more surely demonstrate on the three planes of being, physical, mental and moral, than through the vocal expression. To be sure, we are first measured by the eye, and then the ear passes judgment, and the echo from the sound of a voice seems to reverberate longer in the memory, with a more lasting impression than that conveyed by the retina of the eye to the visual centers of the brain.

The voice expresses strength or weakness, an emotionally rich, strong nature, or a weak, high-pitched, undeveloped nature. Whether this wealth of voice is constitutional or developed through and by the consistent development of the muscles and brain, it has the same pleasurable effect upon the listener and has a most beneficial

effect upon the hearth of the individual.

If singing is music married to the muscles, speech is the same, in a modified degree. It is up to the diaphragm and the lungs to give the quality of the voice; and the emotional nature acting upon the vocal chords to give the tone coloring. This is why we are advised: "When angry count ten before you speak. Because if you should speak with the very nicest selection of words possible and be feeling the emotion of anger you would surely 'give yourself away'."

Thus we get back to the fact that almost all of our pleasure and usefulness in life depends upon the health and strength of the muscular system, feeding through a flow of pure blood the mental and moral nature.

LESSON XXIV

"Every inch which a woman adds to her chest measure adds to the measure of her days"—and her charms.

Taking the basic position, fully empty the lungs. Inhaling deeply in seven (7) counts, take position given in our lesson XX, weight on strook right leg, bent knee, etc. Holding breath, transfer weight to left leg, back, hip leading, and torso forward right, throw left arm up as guard, left arm seeking shield which rests on ground, and exhale with a strong "Ha." Change weight and repeat. The raised arm is for its strong action on the chest muscles. This method of exhaling is felt from the diaphragm to the vocal chords.

JUST TRY RHEUMA NO CURE, NO PAY

That is the Basis on Which Druggists Offer this Great Remedy for Rheumatism.

Anybody can afford to use Rheuma to get rid of terrible rheumatism, sciatica, or gout, for it is sold by T. J. Evans and other druggists at only 50 cents.

It is wonderful how speedily this simple remedy takes hold and how sore muscles limber up and swollen joints come down to normal. It is the best remedy you can find to drive rheumatic poison from the system and bring back health to misery-racked bodies.

"I had rheumatism for a long while, and was not cured until I used Rheuma. My advice to those suffering from rheumatism is to use this great remedy, as I believe it will effect a cure in any case."—C. B. Lanham, Sattles, W. Va. Get the genuine in the trade-marked package—in liquid form—guaranteed.

Your Boys and Girls

There is much of imagination in the life of every child, and this should be fostered and guided for use in later life. If it is possible give up one room to the children, or, if not that, then a part of the room, an alcove or a corner, so that it can be transformed into an attractive and educative spot for the child. It is not so much a question of size as it is of a distinctive place. If possible it should obtain a cabinet for toys. A box into which the child at the end of its play dumps all of its toys, fosters only a semblance of order.

Here are some "don'ts" for children that should be heeded by all mothers: Don't allow the children to read in a dim light. Don't let them read with sunlight glaring on the book. Don't allow them to read at night facing the light. Don't allow them to read while lying down. Don't allow them to read for too long a period at one time.

IMPROVES QUICKLY AFTER TAKING NATURE'S CREATION

MRS. ALVA GIBSON
Along with hundreds of others, Mrs. Alva Gibson, Box 212, Barnesville, O., says: "I can conscientiously recommend Nature's Creation, from my own experience, as the best and only medicine for diseases leading to tuberculosis, impure blood and any other diseases leading to tuberculosis."

"I changed doctors," writes Mrs. Gibson on May 4, 1915. "But it did no good. My mouth was full of sores; had severe pains through chest and under shoulder blades; digestion poor and I was weak. After taking Nature's Creation but a few weeks, there was a great change in my condition. My cough gradually disappeared and the pains in my breast subsided. I was able to get up and about. I secured for many months. My appetite, digestion and sleep improved and I gained in strength and weight. My neighbors thought it wonderful. I have not taken any of the medicine for about a year and a half and am feeling fine; do all my own work on a large farm."

The above case is by no means unusual, as Nature's Creation is producing remarkable results everywhere every day. Sufferers from tuberculosis, as well as conditions leading to it, like asthma, bronchitis, catarrh, impure blood and run-down system, say there is nothing like it. Don't take our word; write for copy of our booklet, "Truth," containing photos and testimonials of persons you may know. Don't delay—write today. M. L. Haymann, 206 Central National Bank Bldg., Columbus, O. Beware of imitations—use only the original and genuine Nature's Creation.

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

IF CROSS, FEVERISH OR BILIOUS GIVE "CALIFORNIA SYRUP OF FIGS."

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given. If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see its tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."

KUROPATKIN IS VIRTUAL HEAD RUSSIAN ARMY

(ASSOCIATED PRESS TELEGRAM) London, Oct. 1.—General Alexei Kuropatkin has been appointed chief of the Russian Grenadier corps, according to a Reuter dispatch from Petrograd.

When Emperor Nicholas assumed command of the Russian military forces in succession to Grand Duke Nicholas, it was reported from Berlin that the actual control of the army had been placed in the experienced hands of Gen. Kuropatkin and Gen. Polivanoff, minister of war.

If the report from Petrograd, regarding General Kuropatkin is true, it means a somewhat remarkable reversal of public opinion in Russia regarding a military leader who was disgraced because of the failure of Russian arms in the war with Japan. His poor success as commander of Russia's great Manchurian army in that conflict while it seemed astonishing to military experts at that time, is believed to have been largely attributed to his subjection to the superior command of Admiral Alexey, Russian victory in the far east and to internal friction among the generals. In his history of the war, however, he frankly admitted his own mistakes and paid high tribute to the gallantry of his troops who had been sent into battle under unfavorable conditions.

NEW HEAD NURSE AT HOSPITAL IN CHARGE TODAY

Mrs. Edith R. Leib, who has been superintendent at the Newark City Hospital has resigned her position and was succeeded today by Miss Evelyn Bietsch of Chambersburg, Pa.

Mrs. Leib, who has been in charge since taking over the new hospital building, has gone to Columbus where she will engage in private nursing.

Miss Bietsch, her successor, is a woman well qualified for her new position. She was graduated in nursing from the Protestant Episcopal Hospital at Philadelphia, and has just completed two years' work in the department of nursing and health at Columbia University at New York City.

Miss Bietsch assumed her new duties at the hospital today and will be in charge of the nurses and the hospital work.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness, undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapersin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapersin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapersin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapersin belongs in your home anyway. Should one of the family eat something which doesn't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement, at daytime or during the night it is handy to give the quickest, surest relief known.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat, which clogs Kidneys, then back hurts and Bladder bothers you.

Most folks forget that the kidneys like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is taken from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

A Liberal Offer By Licking Creamery Company

To the Users of Milk and Cream From Its Retail Wagons.

The Licking Creamery Company here to announce that until further notice it will make a regular monthly award of two (2) \$1.00 sheets of milk tickets upon each of its retail milk wagon routes to private consumers of milk and cream throughout the city.

The awards will be made on the 15th day of each month.

A duplicate receipt stub from every sheet of tickets sold during the preceding month will be placed in a box from which the stubs to receive awards will be drawn by a disinterested party. Each route will be handled separately.

THERE IS BUT ONE CONDITION QUALIFYING THESE AWARDS.

All competitors must have their accounts with the Licking Creamery Company paid in full for the month preceding the one in which any given drawing occurs.

In other words, should a duplicate of one of your ticket receipt stubs be drawn on the 15th of one month it would not receive an award unless your account was paid in full for the month preceding.

This is absolutely the only requirement made, thereby characterizing this proposition as being extremely clean cut and liberal.

We hope it will please the public. Watch for the next drawing. Your name may be among the fortunate ones to be announced in the papers following the next drawing.

SIGNAL GIVEN BY EXPLOSION SEVEN MINES

AT WHICH FRENCH TROOPS LEAPT FROM TRENCHES TOWARD GERMAN

Latter Bolted Toward Second Line of Defense Which Was Also Taken, Says Witness.

(ASSOCIATED PRESS TELEGRAM)

Paris, Oct. 1.—Seven mines, each containing sixteen hundred pounds of powder, were exploded with a terrible roar as soon as the signal was given for the French advance at Souchez, according to the story of an eye-witness of the battle.

"Simultaneously," he said, "four men leaped out of their trenches and made for the German trenches before a forest."

"The Germans bolted through the woods, pursued by our first wave. Sections of the second wave exploded the ruined trenches and underground shelters which often were 20 feet deep. As they had no desire to go down into these holes whence it seemed unlikely they would come alive, our men dropped bombs and fired shotguns through the openings, which effectively prevented the occupants from coming out and taking us in the rear."

"The bulk of our men followed the Germans who were running like hares through the woods. They soon captured the second line of trenches in the middle of the forest. This maneuver was foiled however, by our officers, who drew our men back to the first line captured."

"During the night the Germans fortified themselves in the woods but at daybreak our artillery stopped their work by a furious bombardment. The evening before the forest presented the ordinary aspect but in a few minutes all was changed like magic. One after another the trees were mowed down by shells and soon the woods were transformed into a field of stumps emerging from a jungle and branches."

"The German artillery was not idle either, but sent at us a steady stream of shells which plowed up the earth all around us without doing much harm. Explosive shells were varied occasionally by shrapnel. This was borne philosophically for since they have had their new steel helmets our men don't fear wounds in the head. A fragment of shell tore through one man's helmet but its force was so spent that he escaped with a grazed scalp."

"At one o'clock in the afternoon the guns ceased firing and we were ordered to attack again. Machine guns which the Germans had placed on their flanks soon put out of action and we drove the Germans out of the woods which remained in our hands."

ARBITRATORS WORK ON DIFFERENCES OF OHIO MINERS

(ASSOCIATED PRESS TELEGRAM)

Bridgeport, O., Oct. 1.—Labor disputes are being adjusted by arbitration here for the first time in the local industrial history. In accordance with the agreement reached at Cleveland, which ended the strike of 15,000 miners in the eastern Ohio fields, C. J. Albasin, president of the miners' union in the district, J. J. Roby, representing the operators and Thomas P. Wandler, of Columbus, named by the former two are hearing the testimony of operators and employees regarding certain grievances which in former days would have meant a strike. One of the questions being considered is the placing of a fine on the men at one of the mines for striking without having first submitted the matter to arbitration.

MRS. RAY FOWLER, OF TOBOSO, TELLS OF NERV-WORTH

Strongly Endorsed Remedy at Nerv-Worth Headquarters, Fair Grounds.

Nerv-Worth headquarters at the fair yesterday and today drew much interested throngs and these were royally welcomed by Druggist T. J. Evans himself, who treated hundreds of visitors to sample doses of Nerv-Worth, besides making sales of the remedy on the spot. A large proportion of the visitors did not need to sample Nerv-Worth, as they had been reported to Mr. Evans what great benefits it had conferred. Among these was Mrs. Ray Fowler of Toboso, who made the following formal statement.

"I had pains and aches in side and back and suffered severely with sick headache. These troubles kept me awake lots of nights and I would have to sit up in bed. I also had severe indigestion, was dizzy, spots swam before my eyes, and I would often have fallen but for the assistance of my husband. I also trembled with nervousness."

"The first bottle of Nerv-Worth I took helped me so much that I took a second one to clinch the improvement. And now I have very little sleeplessness, my nerves are much staidier, the dizziness is almost gone, pains and aches much better and I have very little sick headache."

Remember that T. J. Evans, the Warden Block druggist, always has Nerv-Worth on hand and refunds your dollar if the remedy doesn't help you.

MONFORT

FORMER CINCINNATI POST-
 MASTER ELECTED COM-
 MANDER OF G. A. R.

Laying of Corner Stone of Amphitheatre in Arlington Cemetery by President Postponed.

[ASSOCIATED PRESS TELEGRAM]
 Washington, Oct. 1.—Elias R.
 Monfort, of Cincinnati, Ohio, was to-
 day elected commander-in-chief of
 the Grand Army of the Republic.
 Three candidates were nominated.
 They were Frank O. Cole, of Jersey
 City, N. J., Wm. J. Patterson of
 Pittsburgh and Captain Monfort. The
 contest was between the new com-
 mander-in-chief and the New Jersey
 candidate. Cole withdrew and the
 election of Captain Monfort was
 made unanimous. The new com-
 mander-in-chief was formerly postmaster
 of Cincinnati.

Laying the cornerstone of the new
 National Amphitheatre in Arlington
 cemetery, the feature of today's pro-
 gram at the Grand Army encamp-
 ment was postponed because of a
 driving rain which enveloped the
 city.

COUNTY FAIR
 CLOSSES TODAY
 CROWD LARGE

The Licking County Fair will close
 at the end of today's business, it hav-
 ing been decided not to continue the
 exposition over Saturday. The rare
 program for the afternoon was al-
 lotted entirely on account of the condi-
 tion of the track. As there was lit-
 tle likelihood that the track could be
 put into condition for Saturday it was
 decided to cancel the last day's pro-
 gram of races. Despite the fact that
 rain fell most of Friday, the crowd
 was good.

NURSES

WERE GRADUATED AFTER A
COURSE OF STUDY IN NEW-
ARK CITY HOSPITAL

Three Young Women Receive Di-
plomas at Commencement Exer-
cises Held Friday Night.

At the third annual commencement exercises of the Training School for Nurses of the Newark City Hospital held last night at the First Presbyterian church, three graduates, Mrs. Della Shaffer, Miss Ethel Varner and Miss Clara Bagent received diplomas.

The presentation of the diplomas was made by Mr. George B. Sprague, a member of the board of trustees of the Newark Hospital. In his address Mr. Sprague referred to the importance and responsibility of a nurse's work and characterized her diploma as a "passport to heaven."

Before the presentation of the diplomas, Dr. Clark B. Hatch in a delightful address presented the class for graduation after which Dr. J. P. H. Stedem gave a splendid talk to the young women dealing with the important work that lies before them.

After the presentation of the diplomas, Mrs. W. D. Fulton, vice president of the board of managers of the hospital, gracefully presented each graduate with a school pin after which the retiring superintendent Mrs. Edith Leibo delivered her address. Mrs. Leibo has served the hospital efficiently and it is with regret that her resignation effective today was received. The invocation and benediction were pronounced by Rev. Calvin G. Hazlett, pastor of the First Presbyterian church.

The evening's program was made more delightful by an organ solo by Miss Lenora Phillips and by two solos "My Lady" and "Goodbye, Sweet Day" by Miss Nichols.

At the conclusion of the program refreshments were served to the hospital nurses and the friends who assembled to witness the commencement exercises.

Hon. Edward Kibler, president of the Newark Hospital association, was to have presided at the commencement exercises but Mr. Kibler

MARTINSBURG

The following young people have enrolled in Defiance College for the current year: Miss Margaret McCullough, Miss Burdette Humphrey and Mr. William Evers.

One of the best lecture courses that our village has ever had has been secured for the season of 1915-16, and the community can congratulate itself on having such splendid talent brought to its aid. Following is the talent:

Byron W. King, lecturer and entertainer.
Col. George W. Bain, Lecturer.
Thomas S. Suleeba, Lecturer and Humorists.

The Henry Company, Artists, Magicians, Musicians and Entertainers.

The Singing Party, a quartette of

ladies giving a vocal and instrumental program.

Last year we had Beauchamp who all would be glad to hear again. This year we have two men, Byron W. King and Col. Bain, each of whom has a reputation equal to Beauchamp.

The Singing Party is rated as a higher class company than the Ohio Girls.

The Henry Company is one of great variety, Magic, Art and Music. Dr. Suleeba is a man of great experience as a lecturer, traveler and humorist. He is considered the greatest foreigner on the Lyceum platform in America.

Supt. Brand has taken quite a financial risk to secure this unusual array of talent and deserves the support and hearty co-operation of the community. Dates will be announced later.

Mr. and Mrs. Dean Hancock returned Sunday from their wedding tour through Michigan.

Mr. and Mrs. Archie Humphreys are the parents of a girl baby, born Tuesday.
